THE NEWS OF THE WEEK.

A Daily Resume of Latest Happenings.

FEBRUARY 13.

Tobacco growers of Hopkinsville and Clarksville districts will circulate petitions asking Congress to remove the tax on tobacco.

The proposition to allow women to vote for presidential electors was defeated in the Kansas Legislature yesterday by a vote of 62 to 51.

The Senate agreed to the conference report on the Department of Commerce Bill and the measure is now ready for the President's signature.

The special court at Dresden has granted Crown Prince Frederick of Saxony a divorce from Princess Louise, who eloped with M. Girou. The blame is officially placed on the Princess.

Frank Underwood, aged nineteen, was shot from ambush and killed while cutting cross-ties near Olive Hill, Carter county. George Henderson, aged seventeen, is in jail at Grayson charged with the shooting.

Secretary of the Treasury Leslie M. Shaw responded to the toast "The President" at a banquet given by the Silk Association of America. He recounted the immense responsibilities of the office and paid a tribute to the personal qualities of Roosevelt.

During the consideration of the Sundry Civil Appropriation Bill by the House yesterday amendments were adopted providing \$500,000 for remodeling the main building of the National Capitol, and \$750,000 for the purchase of a site for a new congressional office building.

Internal Revenue Commissioner Yerkes will be a candidate for Judge A. M. J. Cochran's seat on the Eastern Kentucky district bench, it is reported, in the event of Cochran's elevation to the place vacated by Judge Day. Judge Cochran's chances are said to be good.

It is announced that the recent increase in wages granted the soft coal miners of the competitive district composed of Western Pennsylvania, Ohio, Indiana and Illinois applies to union miners only. The non-union men will not share in the benefits of the wage scale signed by the operators and union men.

The Senate ratified the treaty providing for a commission to fix the Alaska boundary. Senator Culom, chairman of the Committee on Foreign Relations, gave notice that the Ishimian canal treaty will be taken up to-day, and when this is finished the Cuban reciprocity treaty will be considered.

The members of the Humbert family of swindlers were placed on trial at Paris yesterday on a charge of liberating M. Cateaux, a banker who had loaned them money. The case does not directly relate to the swindle of the "Crawford million." Frederick Humbert attempted to intimidate high French officials, but was restrained by the judge on the ground that such testimony did not relate to the liberal suit.

The German Government has ignored the agreement made through Court Quard with Minister Bowen regarding the Venezuelan settlement and last night insisted on a cash payment of \$3,000,000 or a lien to the amount of the customs receipts of the Venezuelan ports.

Minister Bowen informed the German Foreign Office through Baron Sternberg that he refused to yield the receipts of any port prior to the Hague's decision, because such action would be preferential treatment. As to the cash payment, Mr. Bowen declared his willingness to pay the sum asked on the signing of the protocol, if Germany can afford "to make a public confession that it does not stand by agreements signed by its duly accredited diplomats." Great Britain and Italy have renounced any responsibility for Germany's action and expressed their regret.

FEBRUARY 14.

About 360 delegates are attending the State Y. M. C. A. convention at Lexington.

The fishing schooner Annie Wesley, which left Gloucester, Mass., November 22, and was last seen off Sable Island, December 17, is believed to have been lost with her crew of fourteen men.

The trial of Dr. Ellis T. Duncan, charged with shooting Bruce Head, was not held at Pittsburgh yesterday on account of the illness of one of the defense attorneys. The case will be tried today.

The common coal mined in

Kentucky during last year was 6,421,266 short tons, an increase of 1,096,554 tons over 1901. The output and increase are the greatest for any year in the State's history.

Judge Alton B. Parker, of New York, a Democratic presidential possibility, declares that in view of his judicial position he does not think it proper to make political speeches and has declined several invitations.

The trial of the Humberts, at Paris, for libel on complaint of a French banker, closed yesterday. Judgment was reserved. The audience showed marked sympathy for the prisoners and applauded a speech made in their defense.

Senator Morgan spoke at length on the Panama canal treaty at yesterday's executive session of the Senate. He declared that the convention was loosely drawn and that the price to be paid Colombia was exorbitant. He gave notice of thirty proposed amendments to the treaty.

The Court of Appeals yesterday sustained the motion of the life insurance companies in the franchise tax cases. The injunction restraining the State Board of Valuation from making the assessment will continue in force pending final judgment. The court has advanced the cases for argument.

The favorable report on the Elkins Bill decided on by the Committee on Interstate and Foreign Commerce was filed in the House yesterday. The report calls attention to the difficulty of securing evidence showing discrimination and of convicting prominent men who violate the law. The minority report calls attention to the condition of affairs shown up by the substitution of the Elkins Bill for the Littlefield Bill.

President Baer, of the Reading company, made the closing argument for the operators before the Anthracite Coal Strike Commission. He asserted that a uniform scale would be an impossibility, and favored the plan of a sliding scale to rise and fall with the price of coal. Mr. Darrow, in closing for the miners, declared that if Mr. Baer had been willing to agree to such a scale at the outset there would have been no strike. He commented on the fact that it comes after the miners had gained their contention for arbitration.

There was a spicy debate in the House yesterday over the item in the Sundry Civil Bill appropriating \$60,000 for the care, repair and refurnishing of the White House. Mr. Gaines, of Tennessee, criticized the increase of expenses at the White House and the "endless chain of entertainments" there. Mr. Fitzgerald, of New York, referred to a newspaper report that Col. Bingham had been removed from the superintendency of the White House because he had opposed certain improvements. These improvements were discussed incidentally, Mr. Cannon saying he was disappointed in the new executive offices, and Mr. Sims, of Tennessee, denouncing the building as "a hen coop" that would invite the attack of anarchists. An effort to reduce the appropriation to \$16,000 was not successful.

FEBRUARY 15.

Bitterly cold weather is prevailing over Nevada, Northern Utah, Southern Idaho and Western Wyoming.

Mr. John L. Wheat, of Louisville, was yesterday elected to preside over the State Y. M. C. A. convention at Lexington.

There is an unprecedented rise in the lower Alabama river. Many cattle have been drowned and much valuable timber has been swept away.

A package of letters containing checks and commercial paper aggregating \$50,000 is missing from the Louisville-Indianapolis mail. The package was mailed in Louisville January 31.

The Senate Committee on Post-Offices and Post Roads yesterday decided by a vote of 8 to 5 to amend the Postoffice Appropriation Bill by adding as an amendment the Omnibus Statehood measure.

Some of the Democratic Senators are trying to induce Mr. Tillman to refrain from delivering his promised speech on the President's negro appointments, but there is little probability that he will desist.

Silk worms, fed on coloring matter, will die the silk naturally to any shade desired, according to a report made by the United States Consul at Roubaix, France. The

consular report gives the details of recent successful experiments in this sort of silk culture.

The jury in the case of Dr. Alexander, charged with complicity in the Indianapolis grave robberies, is still out. After the jury retired a young man threatened to shoot the prisoner if the jury should fail to return a verdict of guilty. One of the jurors was stricken with heart disease while in the jury room.

H. C. Robertson, the star alibi witness for Jim Howard, has apparently gone for good. He was under bond of \$500 on the charge of false swearing in the Franklin Circuit Court. This bond was forfeited at the term last fall, and Robertson's bondsman, N. I. McDaniel, a Frankfort business man, has paid over the amount.

The House yesterday passed the Elkins Bill to prohibit rebates to shippers, the vote standing 241 to 6. The vote was taken after an hour's debate, during which Mr. Cochran, of Missouri, branded one of Mr. Hepburn's statements as "a deliberate lie." Mr. Hepburn ignored the epithet and the incident was apparently closed.

The public sessions of the anthracite Coal Strike Commission ended yesterday, when Clarence S. Darrow finished his closing speech for the miners. The commission will begin next sessions in Washington next Thursday. A decision is expected by the end of February. If an increase in wages is granted the miners it will date from November 1, the day when the miners resumed work, leaving their cause in the hands of the commission.

Protocols were signed in Washington last night by Minister Bowen on one side and representatives of Great Britain, Germany and Italy on the other for the raising of the Venezuelan blockade and the reference of the question of preferential treatment of the allied Powers to The Hague tribunal. Venezuela will gain by this action the withdrawal of the foreign warships within twenty-four hours and the return of her own vessels now held by the Powers' fleet.

FEBRUARY 16.

The Army Staff Bill was signed by the President and is now a law. The Omnibus Public Building Bill carries \$10,000 each for the Government buildings at Henderson and Maysville.

Heavy snows and severe cold are reported from various places in the West. In Wyoming the snow is the deepest ever known and cattle men now fear serious losses.

The plague shows signs of increasing at Mazatlan, and five deaths were reported yesterday. There are many new cases, some among the best classes of citizens.

Judge John B. Cochran, a former member of the Kentucky Legislature, but a resident of Colorado since 1880, died yesterday at Denver. He was seventy-eight years old.

Over \$2,000 was subscribed for State work and about \$5,000 was pledged for county organization at the State Y. M. C. A. convention at Lexington Saturday. The convention will close today.

Ohio politicians in Washington are attempting to agree on some man to succeed Solicitor General Richards and Judge Thompson as successor to Judge Day. No appointment has yet been made.

Three hundred natives of Central Africa were slaughtered by a British punitive expedition sent against the Emir of Kavio. The British casualties amounted to fourteen wounded, two being officers.

Andrew Carnegie offered to pay the sum of \$300,000 in cash, demanded by Germany of Venezuela in addition to the amount previously agreed on. Mr. Bowen did not find it necessary to take advantage of the offer. England has raised the blockade.

The Democratic Committees of the Eighth Judicial and Eleventh senatorial districts met at Bowling Green Saturday and ordered a primary election held on May 9 to nominate candidates for Circuit Judge, Commonwealth's Attorney and State Senator.

Pittsburg and Chicago capitalists will purchase 36,000 acres of coal land in Harlan, Jackson and Bell counties, Kentucky, and another large tract over the Virginia line. A railroad will be run into the territory, and several millions of dollars spent in developing the mineral and timber resources.

The President Saturday signed the bill providing for a Department of Commerce. George B. Cortelyou's name will go to the Senate probably tomorrow as Secretary of the new department. He will be succeeded in his present position by William Loeb, Jr., assistant secretary to the President.

The Democratic precinct meetings held in the Nineteenth Judicial district Saturday indicated an easy victory for Judge James P. Harbison for Circuit Judge and for the Hon. Thomas D. Slattery for Commonwealth's Attorney. County conventions will be held today and the district convention will meet at Vanceburg February 25.

John Winder, the manager of J. Pierpont Morgan's West Virginia properties, and Dan Hanna, son of Senator Hanna, are accused by a West Virginia legislator of assault. The legislator claims that the men beat him and threw him from a carriage during their stay at Charleston. The accused deny the story and say they never heard of the complainant. The legislator took out warrants for the arrest of Winder and Hanna, but the men were allowed to continue their journey to Ohio without arrest.

A Weak Stomach

causes a weak body and invites disease. Kodol Dyspepsia Cure cures and strengthens the stomach and wards off and overcomes disease. J. B. Taylor, a prominent merchant of Charleston, Tex., says: "I could not eat because of a weak stomach. I lost all strength and run down in weight. All that money could do was done, but all hope of recovery vanished. Hearing of some wonderful cures effected by use of Kodol, I concluded to try it. The first bottle benefited me, and after taking four bottles I am fully restored to my usual strength, weight and health." The Louisia Drug Company Dr. J. D. Biggs manager.

Long wharf, Boston, almost as celebrated as Faneuil Hall itself, the ever-notable Cradle of Liberty, has been partly destroyed by fire. The ancient landmarks are vanishing.

One Minute Cough Cure gives relief in one minute, because it kills the microbe which tickles the mucous membrane, causing the cough, and at the same time clears up the phlegm, draws out the inflammation and heals and soothes the affected parts. One Minute Cough Cure strengthens the lungs, wards off pneumonia and is a harmless and never failing cure in all curable cases of coughs, colds and croup. One minute cough cure is pleasant to take, harmless and good alike for young and old. The Louisia Drug Company, J. D. Biggs mgr.

One of the largest families in St. Louis, Mo.—that of Arthur W. Becker—is joyously celebrating the birth of a baby girl. This is the first time in 140 years that a girl has been born in the family. The grandfather, J. Becker, had five boys, and his father, Jacob Becker, four male heirs. The father of Jacob Becker had no sisters and no daughters, and none of his sons had any daughters.

Don't forget the old man with the fish on his back.

For nearly thirty years he has been traveling around the world, and is still traveling, bringing health and comfort wherever he goes.

To the consumptive he brings the strength and flesh he so much needs.

To all weak and sickly children he gives rich and strengthening food.

To thin and pale persons he gives new firm flesh and rich red blood.

Children who first saw the old man with the fish are now grown up and have children of their own.

He stands for Scott's Emulsion of pure cod liver oil—a delightful food and a natural tonic for children, for old folks and for all who need flesh and strength.

A Month in Oklahoma.

It was on a Thursday evening when a Rock Island railway train steamed up to the Cashion depot, and a passenger stepped off to walk on earth to him unknown. The sky was overcast with a drifting gray veil through which the stars peeped mischievously, and in the west could be seen a streak of yellow light which illumined the pathway of a new-comer. A distance of three miles was yet to be reached and a means of conveyance being obtained, a stranger was soon being driven westward over the prairie. The wind blew mournfully through the dry woods and withered grasses, and above the "voice of the wind" could be heard the deep measured clank of a rapidly whirling wind mill. Through the fast gathering dusk shone the dull red lights from the scattered farmhouses.

The driver by a leather stimulant frequently reminded his steel of the importance of his mission, and briskly were two travelers taken over the surface till, after a short time, a journey that had been so wearisome and fatiguing was at end.

Being refreshed by the slumbers of a night, there arose in the morning another inhabitant to gaze upon a new world. The day began with a clouded sky, and the wind rustled through the turfy branches of the elm and cottonwood trees, which fringe the banks of an adjacent stream. To east, west and south were stretching afar beautiful wheatfields; and looking to the north could be seen the forest of the Cimarron River, which in its distance looked like a menacing stormcloud. Like a child who had first stayed from the doorstep these new surroundings were as wonderfully strange. But being for a month regularly associated with these unaccustomed lands and these new people, it seems more homelike.

The people of Oklahoma are hospitable, generous, and progressive. Instead of the soil house they live in homes of the most modern design. Agriculture is more successfully carried on than it is in many places in the east. A farmer who lives among the hills would be required to study the use of the farming implements something less than a year before he would be permitted to enter a farm as a laborer. It is an easy task to plant from seven or eight acres in a day. This is a fine country for a lazy man to farm. He can do the most of his work riding in a comfortable seat. Ground can be plowed, corn dropped and covered simultaneously with the same implement.

The school system is excellent in this territory. Educational advantages far exceed that in a great many of the old states. There is a well furnished schoolhouse on each three miles square, making, at the greatest, a distance of one mile and a half for the pupils to walk to school. The teacher's wages range from forty to seventy-five dollars per month. The school terms are seven, eight, or nine months as the board direct; and the district pay the teacher at the end of each month.

There are numerous churches in this country. There are Sunday schools which are regularly attended. Much money is being spent to promote the cause of Christianity. This prairie which formerly was a desolate plain is indeed in a rapid state of progress. Where once roamed vast herds of buffaloes, now are extensive wheat and corn fields and there are numerous railroads running through the country facilitating the transportation of the farm products. No more are heard the hideous cries of the wolf, the distressing wail of the coyote, or the prate of the prairie hen; and the dusky race that was once a monarch of these prairies has become so subdued that now civilization reigns supremely. And like the farmers of Grand Pro which are so beautifully discussed in Longfellow's Evangelism, the farmers of Oklahoma are living at peace with themselves and the world. Leslie Sweetnam.

The Easy Pill.

DeWitt's Little Early Risers do not gripe nor weaken the system. They cure biliousness, jaundice, consumption and inactive livers, by arousing the secretions, moving the bowels gently, yet effectually, and giving such tone and strength to the glands of the stomach, liver and bowels that the cause of the trouble is removed entirely. These famous little pills exert a decided tonic effect upon the organs involved, and if their use is continued for a few days there will be no return of the trouble.

Daro is no sensibleness to be compared with DeWitt's Little Early Risers. Daro is a matrimonial gets rough.

BUDS AND FLOWERS OF HOME LIFE.

Paine's Colery Compound Makes and Keeps the Children Well and Strong.

Mothers Make It the Home Medicine For the Little Ones.

The children, God bless them, are the buds and flowers of our homes. Without their prattle and hearty laughter, our homes would be desolate. They should ever be carefully tended in childhood and youth, if we expect them to ripen into perfect men and women.

In the home and at school, the children have their times of ill health and suffering. We often note the pallid and bloodless cheeks, heavy eyes, nervous movements, and twitches of limbs and muscles. They complain of headache, drowsiness, weariness, dyspepsia, and indigestion. All such symptoms and ailments mean that the seeds of disease will have a fast and firm hold, unless proper measures are taken to restore a perfect condition of health.

Thousands of wise and prudent parents have made their children happy, healthy, and vigorous by giving them nature's medicine, Paine's Colery Compound. In many severe and complicated cases, Paine's Colery Compound has restored health when the little ones were given up by physicians.

If your dear ones are not as hearty, strong, and rugged as they should be, try the health giving virtues of Paine's Colery Compound. It makes and keeps the children well.

Editor Moore a Good Walker.

Editor C. C. Moore, of the Blue Grass Blade, at Lexington, left that city Tuesday night for a trip to the Holy Land. He will return home about the first of May. In this trip will be realized one of the principal ambitions of Mr. Moore's life. Many years ago, when quite a young man, he started upon a pilgrimage to Palestine, intending to walk the entire distance, except, of course, the seas and oceans he had to cross by steamers. Upon this occasion he walked to New York from Kentucky, crossed the Atlantic, footed it through England to Dover, crossed the English Channel, landed at Calais, from which place he walked to Paris. Here he gave up the trip and returned home.

Kidney complaint kills more people than any other disease. This is due to the disease being so insidious that it gets a good hold on the system before it is recognized. Foley's Kidney Cure will prevent the development of fatal disease if taken in time. Louisia Drug Co.

Escaped an Awful Fate.

Mr. H. Haggins of Melbourne, Fla., writes, "My doctor told me I had Consumption and nothing could be done for me. I was given up to die. The offer of a free trial bottle of Dr. King's New Discovery for Consumption, induced me to try it. Results were startling. I am now on the road to recovery, and owe all to Dr. King's New Discovery. It surely saved my life." This great cure is guaranteed for all throat and lung diseases by A. M. Hughes, Doughty Price 50c and \$1.00. Trial bottles free.

A Married Man's Musings.

Anybody that's worth doing at all is worth doing twice.

If all wives were mind readers the average husband would have to do most of his thinking downtown.

In melancholy moments a fellow sometimes gets to wondering what people would say if he should whip the preacher who married him.

A woman is never satisfied with a house unless it possesses all the modern conveniences.

Probably the first thing Eve said when she arrived was: "Such an untidy looking house I never did see! But, of course, you're only a man. Where on earth do you keep the broom?" And Adam had to confess that there wasn't any.

Catarrh and Hay Fever.

Liquid Cream Balm is becoming quite as popular in many localities as Ely's Cream Balm solid. It is prepared for use in atomizers, and is highly prized by those who have been accustomed to call upon physicians for such a treatment. Many physicians are using and prescribing it. All the medicinal properties of the celebrated Cream Balm are contained in the Liquid form, which is 75 cts., including a spraying tube. HUBERT VREELAND.

Democratic Candidate for Commissioner of Agriculture.

As its thousands of readers know, the Farmers Home Journal does not often express its preferences or advise its friends and patrons in contests for political offices, but there are times when we deem it to be in our special province to speak a plain word where the interests of the farming classes of Kentucky are specially concerned, and in this connection we desire to express our heartfelt indorsement of the candidacy of Mr. Hubert Vreeland, of Jefferson county, for the Democratic nomination for Commissioner of Agriculture, Labor and Statistics. The State Primary will be held on May 9th in every county in Kentucky, and every Democrat will doubtless feel it his duty to go to the polls and there express his preferences in the various contests for State offices. As for the other State offices, the Farmers Home Journal has no preferences to express, believing that it should have an eye only to that which is of direct concern to the farming classes. Mr. Vreeland was formerly a representative of the Farmers Home Journal, and for the past three years has been the assistant Commissioner of Agriculture, receiving the appointment from Commissioner I. B. Nall on account of his special fitness for the duties. His service as assistant has familiarized him with all the duties of the office, and in fact has given him a knowledge of the conduct of its affairs that a new man could not acquire until after a year or two of his term had expired. Mr. Vreeland had all his life been a steadfast Democrat, always supporting actively the regular nominees of his party. He has already received the indorsement of thousands of the most representative farmers in Kentucky, and it affords us a real pleasure to be able to recommend to our readers and friends such an eminently qualified and estimable candidate as Mr. Vreeland. We speak for him because we know him. We speak for him because we know the requirements of the office which he seeks.—Farmers' Home Journal.

At the State meeting of the Young Men's Christian Association held at Lexington a few days ago there was a revolt because of the admission of negro delegates on equality with the whites, and some delegates withdrew from the meeting. The controversy led to remarks on Berea College, the mixed school in Kentucky which is supported by Northern fanatics. A delegate from that portion of the State remarked that within ten days there had been expelled from Berea three white girls and two colored men, charged with courting. He also stated that he had seen white and colored girls walk arm in arm down the streets of the town where this college is located.

The authorities did wrong in excluding these young people. Their courtship is the natural result of placing them on an equal footing and forcing the white girls down to this social level. They are not

responsible. The misguided supporters of that hybrid school and the parents who send their children there are the ones who are to blame.

Children can be educated to almost anything, and there is something in human nature that makes it easier to learn than that which will elevate the ideals and morals. A hard fight all the time is necessary to the higher education of the race. The experience at Berea is just what has always been predicted by opponents of mixed schools.

If our Congressmen can do anything toward rushing the letting of contracts for building the two dams below Louisa and the two locks above, the people of Big Sandy hope they will do so. The money has already been appropriated and the sooner work is started the sooner we will get the use of the slackwater. If the matter is delayed very much longer we will lose one season. If not two, that we might otherwise reasonably hope to have the benefit of.

The State Department has received a cablegram from Guatemala announcing that Secretary to the United States Legislation, James G. Bailey, the Big Sandian, whose name was connected with that of W. Godfrey Hunter, Jr., in the killing of William Fitzgerald, is returning to the United States in company with former Minister Hunter. It is understood at the department that Bailey will not return to Guatemala, and that Minister Combs will practically have a free hand in the appointment of his successor and such reorganization of the Guatemalan diplomatic staff as he deems desirable.

A. J. Evans has sold his farm on the other side of the creek from his home to four different parties; Troy Sagraves, \$500; Monroe Moore, \$400; Joel Adams, \$300; Malachi Wheeler, \$500. A. J. has bought M. F. Gambill out. Troy Sagraves sold his farm to Cambridge Williams. Joel Adams sold to Steve Pyffe, of Elliott county. Bert Collins has rented of H. F. Williams and moved. John Diles has moved on Wincee Sagraves place. H. L. Lyon will move to Greenup county soon. We are sorry to lose him as he is a good neighbor. Demiah Penix has moved to Cherokee, H. L. Boggs will move to the Boggs house, Jess Ramey to the Boggs house. If any one can beat this for moving we would like to see it in print.

Mrs. Laura Diles has gotten about well.

Our school closed Wednesday on account of smallpox.

Henry Daniel, of Warfield, was here last week selling books.

At Point Pleasant church last Sunday four were baptized. There was a large congregation and well behaved, except a few who were intoxicated. I wish the young men would learn to respect public worship and never go about it when under the influence of whiskey.

A. M. Sagraves is talking of getting out and getting subscribers for the Louisa News. He says it is the best paper in the state of Kentucky.

PAINTSVILLE.

Smallpox Epidemic Under Control. No Deaths and No New Cases.

No new cases of smallpox have been reported from Paintsville for nearly two weeks. The patients are all doing well, and many of them have been discharged from quarantine. The general quarantine of the town has not yet been raised. The mails have been going and coming regularly. No deaths have occurred from the scourge here. The only damage has been to business, which has been practically suspended.

Elbert Arnett, confined in jail under sentence of five years in the penitentiary, for a murder committed in Magoffin county, has recovered from smallpox and will be taken to Frankfort soon.

The Western Union telegraph office will be opened as soon as the quarantine is raised. Frank Wallace, Jr., of Louisa, will be the operator. The office will be one of D. J. Wheeler's office building. Smith Rice, who has been sick for some time, is slowly improving. The February term of the Johnson Circuit Court was postponed on account of the smallpox epidemic. The following items are from the Leader:

It is reported here that Edwin Castle, son of Capt. J. W. Castle, had the misfortune to lose a finger or so a few days ago while working in the carpenter shop of the State School for the Deaf, at Danville. Edwin is serving an apprenticeship in the school and this makes the second time he has sustained loss of his fingers. Attorney B. H. Conley, returned home Saturday from Cincinnati, where he went to take his wife to the hospital. He reports that she underwent a serious operation successfully at Christ's Hospital, Mount Auburn. Mrs. Conley is getting along nicely and it is thought she will be able to return home within the next two weeks.

John C. Mayo, is at Miami, Florida, in conference with ex-Senator Johnson N. Camden, the well known West Virginia multi-millionaire, relative to a big deal in Northern Coal and Coke Company stock. Senator Camden has already acquired a large amount of stock in the Northern and is trying to get control of the mammoth affair. As a result of Mr. Camden's deals, the stock has advanced nearly six points in the last two months.

WHITEHOUSE.

No Smallpox Here Now—Congestion of Freight at Last Relieved—Mails Stopped by High Water.

C. R. Tracy and B. H. Harris, who are inspecting telephone poles for the Cumberland Pike Line Co., have been laid up on the account of bad weather and high water, but will be able to go to work again in a few days if we have no more big snows and rains.

The river is up so that we had no mail from Paintsville yesterday. Will have none today.

B. H. Justice, of Huntington, W. Va., together with his son Ralph, who is proprietor of the Mansion Hotel of Catlettsburg, and Mrs. Buck Bally and son, James Hatcher, and Sam Wright, of Pikeville, H. A. Shaub, Mr. Buir and Willie Turner, Mr. Clark, and Mr. Gibson, a railroad foreman of Laynesville, are stopping at the Harris Hotel.

The river is so high that it doesn't look like they will get away soon.

B. H. Conley, who has been to Cincinnati after his wife, who was there in the hospital for some time, but now is rapidly improving, stopping at the Whitehouse Hotel.

The freight at this place is cleaned up. Nothing lies here now more than a day or two till it is sent on up the river. This is the first time this condition has existed since last July.

Frank Harris, of Winifred, is helping in the postoffice at this place, Mrs. D. J. Chandler having gone home. Our mails are very heavy. It takes about three clerks to get the mail ready for the train and backs and then we don't get off without a few good cussings occasionally. But I understand that cussing is a part of the salary of editors and postmasters.

J. L. Hibbard, with a coal inspector, came home Saturday and took dinner, but returned to Peach Orchard in the evening.

The boy that had smallpox here has left on the train and we haven't a case in town.

Frank Hibbard, who has been working for Langhorne & Ricketts, has accepted a job from the Cando Packet Co., and went to work this morning. "Timothy Winkley."

LUNDA.

Henry Evans is slowly recovering from a severe attack of pneumonia. Mrs. John Sagraves has fever. Jay Gambill and wife visited H. F. Williams Saturday and Sunday.

A. J. Evans has sold part of his farm and bought M. F. Gambill's.

Church held at Laurel Hill Saturday and Sunday by Bro. Peter Skaggs. Owing to the mud the people were few. Gustus Evans is attending the Blaine Normal School.

Smallpox is causing an excitement over this neighborhood.

Harvey Kaeze has moved to Hoot Owl Hollow. Joel Adams will move into the house vacated by Kaeze.

Chilt Osborn, Jr., still makes his Sunday visits at H. F. Williams.

OUR NEIGHBORS.

The body of Earl Hatcher, who was drowned at Pikeville two weeks ago, has not been found.

John W. Langley, of Floyd county, Kentucky, wants to be chief clerk of the new Department of Commerce and Labor.

Hereford, the fourteen-year-old son of Sant Preston, living three miles east of Paintsville, was suddenly killed by a falling tree a few days ago.

Alvin Powell, the mail clerk on the Big Sandy division, is still off duty on account of a severe attack of stomach trouble. He is some better, however.

The Bank of Pikeville has been converted into the First National Bank of Pikeville, Ky., and authorized to begin business with a capital of \$50,000. J. W. Ford will be president and J. C. Bowles cashier.

Richmond, Ky., Feb. 14.—Dr. J. M. Poyntz announces the marriage of his daughter, Estelle, to Dr. J. Frank Reynolds, of Mt. Sterling, to take place Tuesday, February 24, at 6 o'clock p. m.—Courier-Journal.

The Huntington Herald says the Triple State Gas Company is now pumping a considerable amount of air through its mains along with the gas, thus adulterating it so that it makes unsatisfactory fires and lights.

News reached here of a terrible murder committed at Paintsville. Jake Schoenfeld killed his wife and son, for what cause we did not ascertain. Schoenfeld had not been found at last report.—Catlettsburg Press.

Dr. A. P. Binfield has been forced by the large increase in his practice to give two days to his Catlettsburg office. He may be found there on Tuesdays and Fridays and at the Buchanan office the remainder of the week.

It is reported that the Morehead and West Liberty Railroad has changed hands and that the new owners will push it to completion, beginning work early in the spring. About five miles have been completed, while fifteen miles have been graded.

Mrs. Ethelbert Gartrell died at her home between Catlettsburg and Ashland on the 12th, of typhoid fever and spinal meningitis. She lost both sight and hearing before death relieved her. Mrs. Gartrell was from Newton, Mass., was 23 years old, and had been married only 15 months.

John Barbour, of Elliott county, formerly a member of the State Board of Equalization, has been appointed by Auditor Coulter to the last one of the four Auditor's agencies provided by the last legislative session. Mr. Barbour had been for some time acting as a special agent for this department.

Greenup, Ky., Feb. 10.—John Wiseman passed through here last night on his way home to Elliott county. He says he went to Chicago some three weeks ago to enjoy an outing. It came to an end by his getting knocked down and robbed of \$300, all his cash in the world. He says he "hobnobbed" it all the way from Chicago.

The East Kentucky Normal and Prestonsburg College, of Prestonsburg, has been incorporated with \$25,000 capital stock and W. M. Byington, E. M. Kennison and Frank Allen are the incorporators. Similar articles were filed at Frankfort by the Home Steam

SNYDER BROS., Louisa, Ky.

Our weather reporter sat up with the thermometer Tuesday night and found that the mercury dropped to one below zero at midnight, having hovered near there for two hours. Soon afterward it began to climb and by daylight was up to twelve above.

The W. C. T. U. met in a business meeting Tuesday afternoon at the home of Mrs. Ruth Hatcher. After the business part of the program had been carried out, the guests were most delightfully served to peaches, cream and cake. Those who were absent most certainly missed a treat, as Mrs. Hatcher proved a very efficient hostess.

At Mr. Sterling the jury in the case of Sarah King, accused of stealing \$3,000 from J. Gano Johnson, acquitted her after being out only a few minutes. Miss King was in the employ of Mr. Johnson as a housekeeper. Johnson is the fellow who worked the "graveyard insurance" plan successfully for \$16,000 on Morris Griffin, of this county.

W. J. Delaney, who claims to be a reformed and converted Catholic priest, delivered a series of lectures at the M. E. Church and Masonic Hall from Saturday night until Tuesday night. Large crowds went out to hear him. He makes some astounding statements about the inside doings of the priesthood and the monasteries of the Catholic Church. Opinions of those who heard him seem to be somewhat at variance. We did not learn what organization is directing his work.

Elwood Hutchinson and Miss Elma O'Neal were quietly married at 6 o'clock Wednesday evening at the residence of the bride's brother, W. D. O'Neal, at this place. Rev. H. B. Hewlett performed the ceremony. They left on train, half an hour afterward, for Torchlight, where Mr. Hutchinson holds the position of store manager for the Torchlight Coal Company. The bride is a pretty and attractive young lady, of whom her husband may well be proud. The News extension is congratulations.

We are now in the throes of the worst weather of the winter. The thermometer registered a minimum of one degree below zero Tuesday night and 13 below Wednesday night. The snow is about a half inch deep. The wind blew at a terrific rate Wednesday, forming snow drifts against every obstruction. The Big Sandy river has been very high, but is now rapidly receding. The Ohio reached the danger line Tuesday night and some of the residents of the low lands have been moved out.

McKinnon-Burchett.

One of the prettiest winter wedding of the season occurred in the East End Sabbath evening. The contracting parties were Nathaniel McKinnon and Miss Virginia Burchett, two very popular young people. The ceremony which joined the happy lives was performed by Rev. N. M. Crue, pastor of the Second Presbyterian church. After the pastor had pronounced the benediction he requested the congregation to remain quietly for a few moments in their seats. Scarcely were the words spoken when the couple, who were waiting in the vestibule, moved down the aisle and were married. The affair was very pretty and while it was a surprise to the congregation they appreciated the pastor's diplomacy. Mr. and Mrs. McKinnon will go to housekeeping in a very short time. The happy couple were showered with congratulations and they have the wishes of The Crisis and a host of friends for many years of wedded bliss.—East Liverpool (O.) Crisis.

Carter-Short.

The Ashland Independent says: "George Carter, of Columbus, O., and Miss Virgie Short, daughter of J. C. Short, near Louisa, were married Sunday evening at the home of Dr. and Mrs. W. A. Berry, 733 East Winchester avenue. The marriage ceremony was performed by Rev. J. T. French, pastor of the M. E. Church, South. The bride is a niece of Mrs. Berry, and she has been attending the Ashland College. She is quite a pretty girl, bright and intelligent, and a clever musician. The groom is the son of M. F. Carter, a prominent farmer and stock dealer of Lawrence county. They left yesterday for a visit in Lawrence county, and later will go to Columbus where they expect to make their future home."

Street Lights.

The City Council and the Triple State Gas Company have failed to reach an agreement as to street lights. Some of our citizens think they see in this an opportunity to make an investment that will soon prove a paying one, and have quietly set about to organize a company to supply this need in connection with another enterprise. Particulars will be given when the plans are perfected.

Will Raise \$11,000.

Representatives of the coal mining companies of Kentucky met in Louisville last Monday and made assessments by which it is hoped to raise \$11,000 of Kentucky's \$100,000 fund for the St. Louis Fair exhibit. In the list of those present we notice the names of Col. Jay H. Northrup and former Senator F. T. D. Wallace, of Louisa.

The time is near at hand when the question of whether or not we shall have an extension of the school term this year must be settled. All who are willing to contribute should make the fact known at once. The largest contributor to the fund as yet now stands as no children or relatives in the school. There are other contributors of the same kind. If all those who are directly interested will do all they can afford to, the extension is a certainty.

Who Is Your Insurance Man?

One is quite often asked who is his lawyer or his tailor or his doctor, but today we ask you a question of greater import—Who is your Insurance Man? Is he one who will beat both you and his company with equal fairness? Some agents, it is said, will, in their dealing, give either the assured or the insurer the hot end of the deal. And while the agent may be reliable in every respect, the company he represents may be not altogether what a prudent man, investing in something as vital as Life Assurance, desires it to be. Life Assurance is no longer something which business men throw upon or speculate about as a scheme which may or may not be taken hold of. The best business men look upon it as the best of investments. You no longer have to quit breathing to win the game. Properly taken, Life Assurance brings sure returns to you while you still live to enjoy them. But be sure of getting the right sort of Agent and the right sort of Company. The best combination we know of is the Mutual Life of New York and Frank Yates, of Louisa. Do you want a "fair deal"? Frank will give it to you. Do you want to cast your lot with a company with millions of capital, directed and managed by a directory composed of the best financiers on earth? Then you can make no mistake when you say to the Mutual: "Insure me!"

These are not idle vaporings nor empty bonanzas. The Company has compilations of facts and figures which are eminently convincing and conclusive. A short newspaper paragraph can not present more than a deflation of the value of assurance and the reliability of companies and agents, and we here epitomize and put into this nutshell of space the whole matter: See Yates and insure in the Mutual!

SMALLPOX LAW.

The following notice issued to the public by County Judge H. B. Rice, of Johnson county, is interesting to other counties also. Judge Vinson, of Lawrence, has given expression to practically the same sentiments:

Nearly every one seems to be of opinion that if he has smallpox, the county must furnish him a doctor and foot the bill. If he is quarantined (and every one is who has it), the county must furnish him fuel and food, and furnish some one to carry them to him, and wait on him until he recovers; then clean him up, clean and fumigate his house, furnish him with a suit of new clothes, and then pay him for his beds and such things as can not be disinfected and must be burned. These and all such conclusions are incorrect. Every one must meet his own bills and sustain his own losses as in any other kind of misfortune. The only exception to this rule is in the case of indigent persons who are absolutely unable to do so.

Any person who has the smallpox and goes upon the streets or highways or elsewhere, so as to expose others to the disease, is subject to a fine of not less than one hundred dollars and not more than one thousand dollars.

Any one refusing to obey any of the rules and regulations of the Board of Health, shall be fined not less than ten dollars and not more than one hundred dollars.

Any person who has been exposed to smallpox and is liable to take the disease, and who will not seclude himself, is subject to be taken by any justice of the peace of the county and confined in some secluded place—at his own expense—until he has passed through the disease, or been released by the Board of Health.

Every person in the county—including children over three months old—who has not been successfully vaccinated, is required to be vaccinated immediately. I hope every one in the county will attend to this matter without delay. It will cost you a mere trifle, and not only secure you and your family against the present epidemic, but is a safeguard for the balance of your lives. If you are absolutely unable to pay the small amount required to secure vaccination, your family physician will attend to it for you and the county will foot the bill. So you are left without any excuse in this matter.

If every man, woman, and child in the county had been successfully vaccinated, there would not have been a case of smallpox in the county today, and the taxpayers would have been spared the enormous expense of the present outbreak.

Now, my friends, having good and evil set before you, let me express the hope you will set the plan of wisdom, carry out the plan here presented, and protect yourself and families from all similar calamities in the future.

H. B. RICE, County Judge.

Rev. F. F. Shannon, A. M., editor of the Keystone Citizen, is spending the month of February in Washington, Co. holding meetings nightly and using the Stereopticon. He is working under the auspices of the Plummer Temperance Fund. Rev. W. W. Hunter, of Buffalo, Washington Co., has charge of the work. We are glad to say a kind word about Mr. Shannon. He is a young man of fine ability, is a good speaker and carries with him some very fine views illustrating the evils of intemperance. Those who are fortunate enough to hear him will be greatly benefited.—Ex.

A Family Reunion.

Last Friday was the 77th birthday of Mrs. Dorcas Snyder, of Rappsburg, Ohio, who has been here for two months as the guest of her sons, T. J. and A. Snyder. Mr. and Mrs. Augustus Snyder arranged a celebration of the day by making it the occasion of a family reunion. They invited all the sons and daughters of Mrs. Snyder, together with their wives and husbands, to meet at their home, and nearly all of this numerous host came. On Thursday evening the following guests arrived:

D. S. Snyder and Mrs. J. S. O'Rourke, of Pt. Pleasant, W. Va.; B. F. Snyder and wife and John Hall and wife, of Rappsburg, Ohio; J. C. Snyder and wife, of Ironton, These, together with Mr. and Mrs. T. J. Snyder, of this place, and the hosts, Mr. and Mrs. Augustus Snyder, sat down with their mother to a sumptuous feast on Friday, the 13th. It was a jolly crowd and a happy event. All the guests were here from Thursday evening until Saturday, and some of them remained until Monday. The weather was ideal and the time was most pleasantly passed. Several pictures were taken. One group contained four generations, John G. Burns and wife, with their little daughter, being included. The latter is the only great-grandchild of Mrs. Snyder.

This family has been remarkably fortunate as to health and long life. All of Mrs. Snyder's children—five sons and two daughters—are living. The oldest is 64 and the youngest 42. The wives and husbands of all these sons and daughters are living. The father has been dead 25 years, and this is the only death in the family except four grandchildren.

A Public Whipping.

The days of the whipping post were brought to the minds of our older citizens last Friday by an event that occurred here. As mentioned last week, Ben Prater and Wilt Holley, ages 14 and 15, sons of Wash and Jerry, of color, were arrested for stealing chickens. They were held over by the Police Court, and on Friday were brought before County Judge R. F. Vinson for trial. He proposed to the fathers of the dusky youngsters that if they would publicly administer a sound thrashing with keen switches, the cases would be dismissed. Wash and Jerry promptly accepted the proposition and at once led the boys out into the public square and proceeded to carry out their part of the program in such a vigorous manner that Marshal DeRossett interfered. It is safe to say the youngsters will not again be guilty of such a bungling job.

Important Notice.

All Administrators, Executors and Guardians heretofore appointed and not discharged by the Lawrence County Court, Ky., and who have failed to file inventory or make settlement as required by law are ordered to do so by the 3rd Monday in April, 1903. And upon failure a rule will be taken against them for failure to discharge the duty, and upon failure to appear and answer, judgment will be entered according to law.

R. F. VINSON, J. L. C. C. February 12, 1903.

Married—O'Neal-O'Brine.

(Tune "Nora O'Neal") I've been thinking my darling about you, Ever since the bright hour we were wed That my life would be dreary without you. And yours be the same when I'm dead, Now our life is all bright as the sun shine. But there's something I'm prompted to do, I'm bound to take out an insurance In favor, dear darling, of you.

CHORUS. For we may not be always as happy As when we left darling Ould Cork. I'll insure for your own sweet protection In the Washington Life of New York. Ould Ireland, sweet Ireland, my country All your claims I can never conceal. For twas there in Ould Cork that I met you. When they called you sweet Nora O'Neal.

And it's well I remember the cottage Where you said you would ever be mine And gave the O'Neal to your parents With consent to be Mrs. O'Brine. CHORUS. But we may not be always as happy As when we left darling Ould Cork. I'll insure for your own sweet protection In the Washington Life of New York. Now Jennie, said Nora, dear Jennie, I'm proud to be always your wife. For I know twas your heart that was speaking When you talked of insuring your life. And it's God bless the day that I met you In the cottage at darling Ould Cork. And it's God bless our home in Columbia. And the Washington Life of New York.

CHORUS. For we may not be always as happy As when we left darling Ould Cork. And I am glad you have got the Ten Thousand In the Washington Life of New York. If Jennie O'Brine can insure her life for Nora O'Neal for ten thousand dollars, why can't you do the same for your Nora O'Neal? Apply to R. A. BICKEL, Louisa, Ky.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder medicine.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless poor, to the great relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp
